Task B

1 Stakeholders

Stakeholder	Role	Goal	Influence	Possible conflict	Evidence or validation
Buyer	End user	Find the right item and receive it safely.	Medium	Wants fast delivery, but QC takes time.	Interview
Seller	End user	Sell items and receive payment.	Medium	Wants low fees and quick payouts.	Interview
QC staff	Operational	Check authenticity and condition.	High	Needs enough time to inspect each item.	Interview
Operations staff	Operational	Handle shipping, returns and refunds.	High	Needs to check evidence before processing a refund.	Interview
System admin	Technical	Manage accounts and access permissions.	High	Needs to balance easy access with data protection.	Interview
Business owner	Management	Set fees and business policies.	High	Needs income while keeping fees acceptable.	Interview

Evidence meeting, interview

2 Interview questions

No.	Topic	Question	Who to ask
1	Main workflow	What happens from checkout until the buyer receives the item? Who handles each step?	Anfield
2	Exceptions	If an item fails QC, who handles the refund and return? How long should it take?	Duke
3	Permissions	What can each role view or change? Who can access ID and bank documents?	Duke
4	Measurable quality	How quickly should a size or color search return results? How many listings and users should it support?	Duke
5	Shipping deadline	When does the seller’s 3-day shipping deadline start? What happens if the seller misses it?	Duke
